

THE GÄRTEN

The Garten is a state of the art curated event space, with an imposing central event space. The surrounding areas are divided into micro-spaces that offer a variety of experiences and pleasures to enjoy in small intimate groups or in a bottleneck of bodies.

At the heart of the venue is the mothership- a luminescent structure that glows according to the mood inside.

Surrounding the warm glow of her body is a dense forest adorned with spaces of encounter: art works, live residencies, cafe areas and listening booths. A concept store and some chilling areas makeup the remainder of this city sanctuary.
