

GÄRTEN
OF PLEASURE

The Gärten is a state of the art curated event space, with an imposing central event space. The surrounding areas are divided into micro-spaces that offer a variety of experiences and pleasures to enjoy in small intimate groups or in a bottleneck of bodies.

THE GÄRTE

A STATE OF THE ART
CURATED EVENT SPACE

The future is being built in front of our eyes. We now spend 70 percent more on experiences and events than we did three decades ago (Eventbrite). We are seeking unique experiences, in spaces that are diverse and reflect multiplicity of uses.

SANCTUARY

MODULAR

GLOWING

The architectural wonder emerges from a dense jungle. A surrounding belt of green encloses the venue. Guests are immersed in a sanctuary of experience.

Intersecting different artistic fields in a fully purposed, modular production venue. An iconic center of attraction as seen from the sky.

The project is a glowing lantern. As a show is set to begin the building's color seeps into a luscious red. This hurries the crowd and excites those eager to get inside.

CULTURE

FINTERRATAINI

GATHERINGS

Product launches, Live TV broadcasts, Food and Farmer's markets, fundraisers and gala dinners and an entire month dedicated to Wellness!

Fashion shows, performing arts, exhibitions and installations, arthouse cinema nights, audiovisual theater, book readings and panels. All you can ask for from a cultural basin such as ours!

Follow the music. Hosting local, national
and international acts of varying genres and
degrees of reputation. Quality assured.

**SOCIAL
ENGINEERS**

The project is founded by upstart organisation Social Engineers LLC, an innovation driven enterprise introducing cutting edge consumer- centric experiences. The company was founded early this year by entrepreneur, investor and mentor Peter Rahal and live entertainment visionary and nightlife legend Tiger Saliba.

HIRING SOON!

Send us your resumes and portfolios of work for
future consideration.
